## Volumes 33–37 (1988)

Acceptance–complement method, 35(278)
Acceptance–rejection method, 35(278)
Accession planning, 34(160)
Acid rain, 35(365)
Adaptive processes, 33(200)
Admissible plan, 37(336)
Advertising, 34(171)
Aggregate scheduling, 35(414)
Aggregation, 35(271)
Agriculture, 34(92), 35(207)
Agriculture and food, 35(165), 37(127)
Air transportation, 35(45), 35(328)
Algorithms, 34(113), 36(107)
Analysis of variance model, 33(257)
Artificial intelligence, 33(17), 34(113), 34(326), 37(83), 37(100)
Aspiration profile, 35(263)
Asymmetric mixture, 36(371)
Autocorrelation, 35(172)

Balanced allocation, 37(378)
Basic probability assignment, 35(89)
Bayesian methods, 33(223)
Behavioral decision making, 34(78), 35(301)
Bidding, 33(2), 36(322)
Bifurcations, 35(80)
Branch and bound, 33(65), 33(326)

Calculus of variations, 36(122)
Canonical programs, 35(111)
Capacity, 35(426)
Capacity expansion, 34(19), 34(297)
Catastrophe theory, 36(379)
Change-making, 33(65)
Chaos, 35(80)
Chebychev's inequalities, 35(172)
Clinical decision making, 34(149)
Combinatorial analysis, 33(98), 35(201)
Combinatorial optimization, 35(45)
Combining forecasts, 33(223)
Command and control, 37(73)
Commerce, 37(158)
Comparative statistics, 33(106)
Competitions, 35(16)
Computational analysis, 33(304), 34(393)
Computational complexity, 34(208)
Computational experiments, 34(78)
Computational mathematical programming, 36(107)
Computer graphics, 34(152), 37(165)
Computers, 34(10), 35(160)
Conflict zone, 35(255)
Congested networks, 36(227)
Consecutive $k$-out-of-$n$: $F$ system, 36(207)
Consensus, 34(316)
Consensus estimation of the maximum, 35(271)
Constraint aggregation, 35(216)
Control, 34(10)
Convex programming, 33(342), 37(250)
Conveyor theory, 35(187)
Corporate planning, 34(282)
Coxian service distributions, 37(272)
C-programming, 33(334)
Credibility, 33(223)
Criteria, 34(139)
Cross-validation, 33(257)
Cusp catastrophe, 36(371)
Cusp point, 36(371)
Customer and time stationary processes, 36(285)
Cutting plane methods, 34(384)
Cutting planes, 34(56)
Cybernetics, 37(8)

Dataflow, 33(65)
Decision, 33(54), 33(200), 34(69), 34(249), 34(262), 35(16),36(1), 36(78), 36(311), 37(92)
Decision analysis, 37(149)
Decision support, 37(73), 37(100)
Decision support systems, 33(191), 33(273)
Decision theory, 34(149), 34(308), 36(14), 36(27), 36(36), 36(322), 36(371)
Decomposition, 36(107)
Degree of consensus, 34(316)
Demand plateaus, 34(19)
Design, 34(262), 37(214)
Design of a production planning system, 35(137)
Differential equations, 37(42), 37(111)
Disaggregation, 35(182)
Discount policies, 34(27)
Discrete, 34(152)
Discrete choice, 36(186)
Discrete optimization, 36(85)
Distance estimation, 34(39)
Distance function, 37(355)
Distribution, 34(178), 37(204)
Divide and conquer, 33(65)
Domed sports arena example, 35(271)
Dominance rules, 34(27)
Dual method, 35(111)
Duality, 37(328)
Duality theorem, 35(111)
Dynamic goal programming, 34(221)
Dynamic programming, 33(65), 35(242)
Dynamics flows, 36(227)

Economic development projects, 37(347)
Economic order quantities, 34(27)
Economic surplus, 33(149)
Economics, 34(362), 36(122), 37(111)
Education, 33(82)
Effectiveness, 37(92)
Efficiency, 33(223)
Efficient compromises, 35(255), 35(263)
Empirical study, 34(39)
Energy, 33(212), 35(30)
Engineering, 35(382), 36(122)
Entropy, 36(186)
Environment, 35(365)
Estimation, 33(298)
Expected utility, 36(371)
Expert systems, 34(113), 37(100)

Facilities, 34(178)
Facilities/equipment planning, 35(339)
Facility siting, 35(350)
Failure, 36(346)
Finance, 36(78), 36(143)
Financial management, 36(143)
Financial planning, 36(143)
First-order optimality conditions, 33(334)
Fish processing, 36(410)
Fisheries, 33(191)
Fisheries management, 33(191)
Flexible manufacturing systems, 33(257), 37(227)
Flow shop scheduling, 34(208)
FMS, 33(245), 37(303)
Forecasting, 33(200), 33(279), 34(131)
Forestry, 36(322)
Fractional factorial design, 33(257)
Fractional programming, 33(334)
Freight transportation, 33(290)
Fuzzy logic, 34(316)
Fuzzy preference relation, 34(316)

Each keyword is followed by volume number and first page of the paper it refers to.
